

**Society for the Study of Human Biology**  
**Proffered Papers Meeting, thursday 31 May 2012**  
**Jessop West Building, University of Sheffield**

- 10.00 Arrivals, Coffee and poster set-up
- 10.20 **Reserve capacity, childhood growth, age at reproduction, and physical performance in Bangladeshi women.** Barry Bogin, D. Harper, J. Merrell, J. Chowdhury, B. Molik, M. Heinrich, V. Garaj, P. Meier, J.L. Thompson. University of Loughborough, Swansea, Bristol, London, Brunel.
- 10.40 **The development of limb proportions and epiphyseal closure in *Pan* and *Homo* with consideration of locomotory adaptations.** Conrad Brimacombe, University of Sheffield.
- 11.00 **Revisiting dental age assessments in *Pan*: finding the 'best model'.** Kevin Kuykendall, J. Boughner, C. Dean, University of Sheffield, Saskatchewan, University College London.
- 11.20 Coffee and poster viewing
- 11.45 Keynote address: **Interdisciplinary Research in Palaeodemography.** Andrew Chamberlain, University of Sheffield.
- 12.30 Annual General Meeting
- 1-2 Lunch
- 2.00 **The effect of malnutrition on the timing of tooth formation.** Fadil Elamin, Queen Mary University of London, Khartoum Centre for Research+ Medical Training.
- 2.20 **Ethnic differences in pre-natal growth: the Born in Bradford cohort.** Tom Norris, N. Cameron, University of Loughborough.
- 2.40 **Body composition, body proportions and lung function in young Black children.** Mitesh Naik, University College London, Institute of Child Health
- 3.00 Tea and poster viewing
- 3.20 **Fauna and habitats in Plio-Pleistocene East Africa: a multi-species ecomorphological approach.** Sarah Elton, C. Meloro, J. Louys, P. Ditchfield, L. Bishop, Hull York Medical School, Liverpool John Moores University, University of Oxford.
- 3.40 **IGF-I as a determinant of human stature.** Moira Lewitt, University of the West of Scotland.
- 4.00 Award of Student Prize and tea.

Posters:

**Are humans 'good primates'? An exploratory analysis of regression models for primate Life History parameters.** Kinsey L. Oleman-Grace & Kevin L. Kuykendall, University of Sheffield.

**Virtual reconstruction and biomechanical analysis of the Magdalenian perinate Wilczyce 1.** Thomas O'Mahoney, Graduate School of Archaeology, University of Sheffield.
